

# 300 Gallon Fiberglass Tank Sprayers

## Available in Single Tank or 200/100 Split Tank

These fiberglass tank sprayers offer the benefits of a sleek appearance, UV protection for your chemicals, and ability to handle the rigors of Mechanical Agitation for those heavier chemicals and wettable powders.

- ◆ Ideal for flatbed sprayer trucks.
- ◆ Easy to apply your company logo and advertising.
- ◆ Durable Stainless Steel Frames

The "Turn-Key" feature includes an on-board auxiliary battery pre-wired to your electric start engine that will start your sprayer and operate your electric hose reel. This eliminates the need for wiring to your truck plus enables you to move the sprayer from one vehicle to another without additional wiring. The engine will recharge the battery while in use.

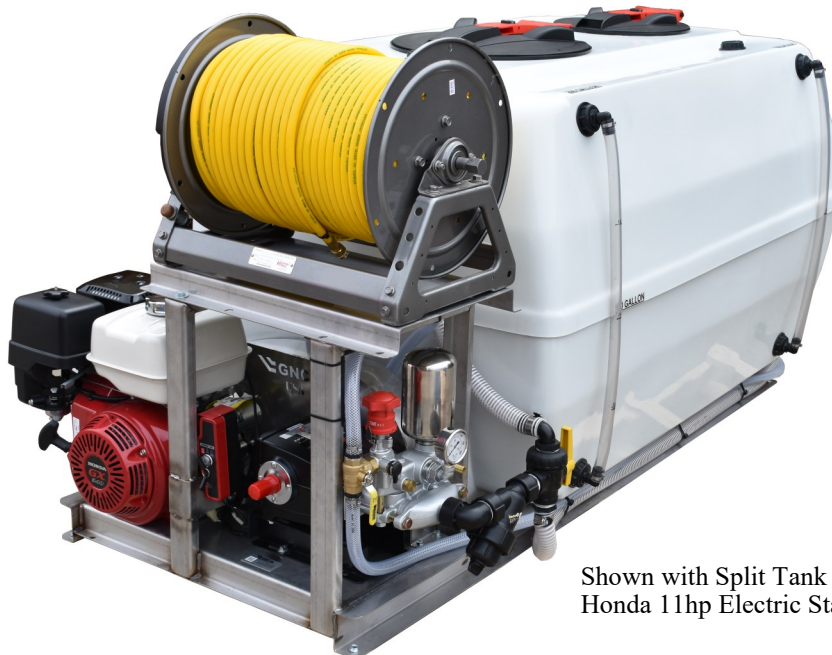

*\*Additional battery recharge may be required based upon individual use*

# 300 Gallon Fiberglass Tank Sprayers

*Considered by many as the “Cadillac” of Sprayers*
