

600 Gallon Fiberglass Tank Sprayers

Available in Single Tank or 400/200 Split Tank

These fiberglass tank sprayers offer the benefits of a sleek appearance, UV protection for your chemicals, and ability to handle the rigors of Mechanical Agitation for those heavier chemicals and wettable powders.

- ◆ Ideal for flatbed sprayer trucks.
- ◆ Easy to apply your company logo and advertising.
- ◆ Durable 6" Channel Frame

Options

- **Turn-Key**
- **Mechanical Agitation**
- AR30, AR50, or **Other Pumps** available

600 Gallon Single Tank 21-86FGXX-P530

- P530 Piston Pump/Honda GX160
- Manual Start Engine
- Sight Gauge on Each Tank Side
- 6" Channel Frame

600 Gallon 400/200 Split 21-86FGXX-P550

- P550 Piston Pump/Honda GX340
- Electric Start Engine
- Sight Gauge on Each Tank Side
- 6" Channel Frame

The "Turn-Key" feature includes an on-board auxiliary battery pre-wired to your electric start engine that will start your sprayer and operate your electric hose reel. This eliminates the need for wiring to your truck plus enables you to move the sprayer from one vehicle to another without additional wiring. The engine will recharge the battery while in use.

**Additional battery recharge may be required based upon individual use*

600 Gallon Fiberglass Tank Sprayers

Considered by many as the "Cadillac" of Sprayers
